Front End Development Internship Assignment

Project:

Web-based Video Editor

Skills:

Web Development

Description:

Develop a cloud-based video editor that works with any of the mainstream browsers i.e. Chrome, Firefox, Opera, Edge, Safari.

Features:

* Video edit tools such as Trim and Split, Add Music/Text, Crop and Resize, Merge clips etc

* Support multiple tracks for Audio/Video

For the purpose of this assessment, you can implement only the UI for following screens:

1. Dashboard

2. Video Editor

All content rendering should be powered by JSON based data.

You can refer to the attached mockup or Veed.io for reference.

Your Deadline For this task is 7 days from initially receiving it

Thank you and good luck!
